

ASSIGNED

Serial No. 3898

APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office APR 13 1918
Returned to applicant for correction
Corrected application filed

The undersigned Round Mountain Mining Company, a corporation,

Name of applicant

of Round Mountain, County of Nye

State of Nevada, hereby makes application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation give date and place of incorporation.) April 1906, Nevada.

1. The source of the proposed appropriation is Jett Creek,
Name of stream, lake, or other source.
commonly known as Jett Canyon
to be stored in a reservoir of 1000 acre feet capacity.
2. The amount of water applied for is thirty-five second-feet.
One second-foot equals 40 miners' inches.
3. The water to be used for Mining and domestic use.
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following point: From Jett creek at a point on un-surveyed ground, from which
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.
the S.W. corner of Sec.17, T.10 N., R.43 E., M.D.M. Bears S $77^{\circ}25'E.$,
16,468 feet; diversion to be at outlet of main impounding dam, in
bed of creek.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____

Describe by legal subdivision, or if on unsurveyed land it

should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

- (c) Irrigation will begin about _____ and end about _____
Month. _____
, of each year.
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horse power.
- (e) Works to be located a pipe line now completed from the point of diversion above described, crossing Smoky Valley to mining claims in Round Mountain Mining District, Nye County, a distance of about eight miles.
- (f) Point of return of water to stream not to be returned to stream.
Describe in same manner as point of diversion.

- (g) Remarks Water to be used for mining and domestic purposes on various lode and placer claims situated in Round Mountain Mining District, the claims lying within and embraced by the following legal subdivisions, the S.E. $\frac{1}{4}$ Sec.14; S.W. $\frac{1}{4}$ Sec.13; N.W. $\frac{1}{4}$ Sec.24; N.E. $\frac{1}{4}$ Sec.24; T.10 N., R.43 E., M.D.M. the N.W. $\frac{1}{4}$ Sec.19; N.E. $\frac{1}{4}$ Sec.19; S.W. $\frac{1}{4}$ Sec.19; N.W. $\frac{1}{4}$ Sec.30; N.W. $\frac{1}{4}$ Sec.20; T.10 N., R.44 E., M.D.M. of Surveyed lands, and upon unsurveyed lands what will be when surveyed S.E. $\frac{1}{4}$ Sec.19; S.W. $\frac{1}{4}$ Sec. (See over)

(Continued)
20; S.E. 1/4 Sec. 20; N.E. 1/4 Sec. 30; N.W. 1/4 Sec. 29,
T. 10 N., R. 44 E.M.D.M.

DESCRIPTION OF PROPOSED WORKS

Water to be diverted from dam by pipe line.

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits: If water is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

Jett creek at above point of diversion, having a width of about 185 feet at base and width of about 10 feet at crest with an approximate length at crest of 200 feet; the foregoing specifications being subject to change to conform to design of structure; said dam forming a reservoir of approximately 1000 acre-feet capacity.

5. Estimated cost of works \$50,000.00

6. Estimated time required to construct works Five years.

7. Remarks (As per slip annexed hereto and hereto referred to)

For use of applicant.

, Engineer.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the source. The amount of water herein allowed is placed at 1570 acre feet per annum, thus permitting the maximum capacity of the proposed reservoir to be utilized more than once each season, in accordance with the proposed plan and manner of use of the water, as outlined above. The State reserves the right to regulate the diversion and storage of the water herein granted at any and all times. Work must be prosecuted continuously and uninterruptedly to completion as provided by Section 65, Chapter 140, Statutes of Nevada, 1913.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1570 acre cubic feet per second, annum for storage.

Actual construction work shall begin on or before June 6, 1917.

Proof of commencement of work shall be filed before July 6, 1917.

Work must be prosecuted with reasonable diligence and be completed on or before June 6, 1920.

Application of water to beneficial use shall be made on or before June 6, 1922. Proof of the application of water to beneficial use must be filed with State Engineer on or before July 6, 1922.

Applicant proposes to store water in reservoir, using same to equalize the flow in the pipe-line, in addition to obtaining by said dam and reservoir a supply of additional water.

On account of continuous draw-off from reservoir by present pipe-line, the above 100 acre-feet capacity does not represent the total annual supply desired, but it is desired to use the full flow of the stream, thus keeping reservoir filled continuously.

This application is made to supplement permit No. 2908 granted to applicant on August 20, 1914 and the water hereby applied for is to be united with the water embraced in said permit No. 2908 and used for same purposes and on same lands.

The maps filed under Permit No. 2908 represent and show precisely the proposed and completed works hereunder, except the contour location of the reservoir.
